

Small Batch Fruit Processing

Safety & Design

Kauri is proud to present our line of premium quality Fruit Processing Equipment. Built in Germany by Speidel, the world-class traditions of German engineering and craftsmanship come together to present the very best quality available in small batch wine, cider and fruit processing equipment.

Apple & Pear Mill

1t/hr

For milling of grapes, apples, pears, berries and more

- Maximum capacity 1000kg per hour
- Centrifugal mill shreds fruit in optimum manner - not too coarse, not too fine
- One pass guarantees highest possible juice yield pre-pressing
- Simple to operate with large feed hopper for easily filling
- Easy clean design – remove feed hopper and spray with water
- Safe – protective motor switch for over loading and reach-in protection; PE shield to protect cutters and motor from unauthorised intervention
- Maintenance free – almost, only the reversible cutting blades require sharpening from time to time
- Rust-free for its entire service life

SIZE

Order Code	Item	Width (cm)	Height (cm)	Outlet Height (cm)	Weight (kg)
SP22200	Apple & Pear Mill	59	133	38	25

ACCESSORIES

Stainless Steel Basin 50L

perfect height for collection of juice and pulp from the mill and hydropress (d=55cm; h=27cm)

Fine Filter Bag 90L or 180L – for pressing of yeast and lees post fermentation to achieve an even higher yield

NOTE: Buyers must ensure their power supply and wall plug is suitable for 15 Amp plug. (An extension lead may also be required) – A qualified electrician is required for this.
