

STAINLESS STEEL BARRELS

Designed for all stages of winemaking, stainless steel excels in terms of product integrity, longevity and purity of materials. Our Stainless Steel Barrels provide a tool for many different winemaking applications such as neutral barrels in **barrel trials**, **topping vessels** for barrels and tanks, **and batch white fermentation**. They can also be used together with barrel alternatives to simulate new barrel-like fermentations or provide an alternative blending component to traditional wines matured in oak barrels.

Uses are endless....

Order Code	6830	6831	6832	6834
Capacity	300L	225L	100L	100L
SS type	304-2B stainless steel	304-2B stainless steel	304-2B stainless steel	304-2B stainless steel
Thickness	1.5mm; 16 gauge	1.5mm; 16 gauge	1.5mm; 16 gauge	1.5mm; 16 gauge
