

Falland **BIG TOUGH GRAPE BINS**

Proven Long Lasting Design

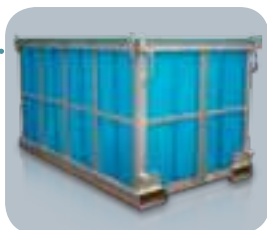

Constructed from the highest food grade PE and fully UV stabilized, Falland Big Tough Grape Bins are made to last against the sun's rays and harsh elements. Unlike PVC, our bins will not become brittle and require frequent replacement.

The ultimate combination....the PE liner provides excellent flexibility, hygiene and corrosion resistance, whilst the fully hot dip galvanized heavy duty steel frame gives it the strength, protection and durability that is needed.

Now made by Gorilla and available throughout Australia and New Zealand through Kauri.
